

YAVOR PETOV

SOFTWARE ENGINEER

PROFILE

Software Engineer with a background in IT education, business administration, and accounting. Experienced in developing web applications with ASP.NET MVC, SQL Server, and Entity Framework. Passionate about building practical solutions — from personal finance tools to educational platforms — and constantly improving technical and analytical skills.

SKILLS

Programming & Web Development

ASP.NET Core / ASP.NET MVC
C# / .NET Framework
Entity Framework & LINQ
JavaScript, jQuery, AJAX
HTML5, CSS3, Bootstrap

Databases

MS SQL Server (design, queries, stored procedures)
Database normalization & optimization

Software Engineering Practices

Object-Oriented Programming (OOP)
Version Control (Git, GitHub)
REST APIs
Agile / Scrum basics

Additional

IT teaching & mentoring
Strong analytical and problem-solving skills
Business and accounting knowledge

PROJECTS

2025

SCHOOL SELECT

Personal / Independent

Analytical web platform for Bulgarian students to choose high schools. It processes student grades and national exam (NVO) results, and suggests best-fit schools based on multiple criteria (performance, distance, competition).
<https://schoolselect.net/>

2025

CODE GRADE

Personal / Independent

A system for automatic grading of students' code submissions. Supports comparing output, test cases, timing, and provides feedback to students and teachers (used in educational settings).
<https://codegrade.kunev.dev/>

MOTIVATION

I am highly motivated to transition into a professional IT role where I can apply both my teaching background and technical expertise. My goal is to contribute to meaningful projects that solve real-world problems while continuously improving as a developer. I thrive on learning, experimenting, and delivering practical solutions – from building educational platforms to developing finance tools. Joining a dynamic team would allow me to combine my problem-solving mindset, strong work ethic, and passion for technology to create value and grow as a professional software engineer.

2025

ALGORITHM VISUALIZER

Personal / Independent

Interactive learning platform for algorithms and data structures visualization. Step-by-step visualization of sorting, searching, and graph algorithms with modern UI.
<https://vizualizer.vercel.app/>

2025

WORLD EXPLORER

Personal / Independent

A world map app to bookmark visited and wishlist destinations. Built with Next.js and Supabase.
<https://world-blush.vercel.app/>

2025

ACADEMY LOGOS

Personal / Independent

Educational platform offering courses for 5th, 6th, and 7th grade students. Specialized in Mathematics, Bulgarian Language and Literature, and Programming.
<https://academylogos.com>

2024

EFFICIENCY HUB

SoftUni final project

Comprehensive project and task management application built with ASP.NET Core 8.0. Features user authentication, role-based access control, and administrative dashboard.
<https://github.com/PetrovKunev/EfficiencyHubApp>

EDUCATION

2023 - 2025

Software University - SoftUni

Education, Sofia

Comprehensive professional qualification program covering back-end development, database design, and software engineering best practices. Completed 450+ hours of intensive training across 12 specialized courses with excellent grades.

EXPERIENCE

2024 - Present

Freelance & Personal Projects

Software Engineer, Sofia

Developing educational web applications and project management tools using ASP.NET Core.

2023 - 2025

Software University - SoftUni

Back-End Software Engineering Student, Sofia

Completed intensive professional qualification program for Back-End Software Engineer with C#.
