KEY PROJECTS AND ACHIEVEMENTS

SchoolSelect.net (Live production application)

- Educational platform helping Bulgarian students make informed high school choices
- Analyzes student grades and national exam results to recommend optimal schools and programs
- Built with ASP.NET Core, Entity Framework, Bootstrap, and SQL Server
- Live demo: [SchoolSelect](#)

Flow.kunev.dev (Live production application)

- Web application for personal finance management
- Built with ASP.NET Core, Entity Framework, Bootstrap, and SQL Server
- Live demo: [flow.kunev.dev](#)

EfficiencyHub (GitHub repository)

- Comprehensive project and task management application
- Features user authentication, role-based access control, and admin panel
- Built with ASP.NET Core 8.0, Identity Framework, and xUnit Testing
- Repository: [EfficiencyHubApp](#)

PROFESSIONAL INTERESTS AND QUALITIES

Professional Interests:

- Computer science and information technology
- Software development and programming
- Project-based learning methodologies
- Team building and management
- Educational technology integration

Professional Qualities:

- Analytical thinking and problem-solving
- Responsibility and precision
- Effective time management and task prioritization
- Adaptability and continuous learning mindset
- Teamwork in dynamic business environments

ADDITIONAL INFORMATION

- Driving license: Category A
- Adaptive personality with strong desire for professional development
- Team player with experience in dynamic business environments
- Dual expertise in both education and business/technology sectors
- Proven experience in management, education, and software development
